SPECIAL ATTENTION

Be sure and see my FREE OFFERS thruout this catalog. I am offering some wonderful NOVELTIES to you absolutely FREE.

TO MY CUSTOMERS AND FRIENDS

Perhaps you will be too busy to read this page clear through, but I feel that I owe it to my customers to thank them for their kind and generous orders that they have sent me in the past and I assure each and every one that they have been appreciated.

Your friends will be interested in getting this catalog, which is different from most they receive. I am sure they will appreciate it if you will hand them a copy or send in their name. Extra copies will be gladly sent to you on request.

My Seeds, Bulbs and Plants give satisfaction. I guarantee satisfaction (See My Guarantee). My long experience in this line of business and my large greenhouses for testing varieties enables me to select the best for my customers. You can be assured that nothing but the best will be sent you. Every plant and bulb that leaves my place is first class stock and true to name. Great care is taken to have each order packed carefully so that it reaches you in perfect condition. If my stock should prove to be other than what I claim for it, I will be pleased to have you write me, in fact, I will consider it a great favor.

MY PRICES—I am sure that you never bought as much seed of as high quality for your money. This I am able to do for the reason that I am a grower.

HOW TO ORDER BY MAIL—It is a very easy plan to order seeds from me by mail. In making out your order the first thing to do is to see that you have your Name, Post Office, R. F. D. and Box, County and State in full in the places designated for the purpose. Write the variety and quantities you want and carry out the prices after each one. Enclose the total amount in any convenient form of remittance with your order and mail to me and I will see that your order reaches you in the best of condition. (Be sure and use my order sheet if you have one.)

SAFE ARRIVAL GUARANTEED—I guarantee all seeds, bulbs and plants to reach you in first class condition.

CUSTOMERS ATTENTION—When making out your seed order, kindly keep the vegetable and flower seeds separate on your order, which will make the filling of the order much easier and quicker.

HOW TO SEND MONEY—Remittances can be sent safely either by Post Office Order, Bank Draft, Express Money Order, Check or by Registered letter.

DELIVERY—Orders for seeds will be filled and sent as soon as received. Plant orders will be sent as early in the spring as the weather is safe, unless earlier shipment is requested.

MY GUARANTEE

I know from careful tests, that all seeds I sell are of strong germination. However, if any should fail to grow if given proper care after planting, I will cheerfully refund that part of the order FREE. I cannot be responsible for the crop, nor for any amount other than the original cost of the seeds. I want every customer satisfied with all the seeds, plants, etc., I send them and should anything prove otherwise, I will appreciate a letter stating in what respect they are not satisfactory.

S. W. PIKE.

DEAR SIR:

I had to send you an order if it was only a small one and I want to thank you very much for the great success I had with the wonderful bulbs and seeds I got last year. (Signed) MRS. SADIE HANSEN.

Dear Sir:—I wish to thank you for your excellent bulbs last year. I have never seen such lovely gladioli, especially the Panamas, as we had from them—surely the finest in town and the talk of the neighborhood.

(Signed) MRS. ELLEN RULLETT

Dear Sir: The bulbs came to hand in splendid shape and I wish to thank you for the extra GLADIOLI bulbs, also for replacing the ones you sent me. I did not expect you to do this for you were not to blame for being frozen while in the mail. They are very nice bulbs and I am very pleased. You surely gave me a square deal.

(Signed) Grace Penelerick.

PIKE'S EVERBLOOMING MINTY LAVENDERS.

MY collection contains only the best of the free blooming and most fragrant varieties that will give you the greatest satisfaction. I recommend this list for the general planting of the amateur who wishes a limited number of varieties, and who is desirous of a supply of extra choice flowers to cut throughout the summer and fall months. There is not one individual sort which I cannot endorse as possessing superior merit, all having been thoroughly tested.
My roses are all young thrifty plants grown on their own roots and will give better satisfaction and make nicer plants than dormant stock. Every plant you get is guaranteed to please or your money will be refunded. These roses will start blooming shortly after being planted and you will not have to wait several months before you can enjoy them.

CARE OF ROSES
Roses grown outside require spraying during certain times for best results. In some localities a small "slug" or worm destroys the leaves from the underside. If good Paris Green or Arsenate of Lead is sprayed on the bushes occasionally, this pest will be kept off.
Roses grown inside should be planted in heavy soil, if obtainable, for best results. Do not over-feed roses by using too much commercial fertilizer. When plants are in bud, a little manure water or bone meal fertilizer will be of benefit to the plants. This latter fertilizer should not be applied oftener than once every four weeks. Liquid manure water about once a week.

SPECIAL NOTICE
In packing roses soil is always left on the roots, which are then packed in wet moss for shipping. If customers prefer to have each rose balled with soil on the roots, they must add 5c each to cover extra cost. BE CAREFUL TO SPECIFY IN YOUR ORDER and add the necessary amount to cover the order if it is not specified.
Example: 10 plants will cost 50c extra, etc.

NOTICE: Orders for roses can be filled every month in the year, if wanted. Roses planted in spring require less attention after being planted.

Only the most select and popular varieties of plants that are sure to give satisfaction are sent out. Every plant is carefully grown and packed so as to reach its destination in the best possible condition.

PIKE'S "Can't-Be-Beat" SEEDS

Pike's Hardy Perennials

The old fashioned flowers of our grandmother's gardens are still all the rage today and it is doubtful if they can be improved upon.

My list is made up of the most popular kinds that will thrive most anywhere and are very easy to grow. Most of these varieties will last for years after they are planted.

OLD FASHIONED GARDEN PINKS (Hardy)

Known as the Everblooming Garden pinks will be found to be the most permanent, double, semi doubles and single flowers with many striking colors. Each 15c; 3 for 30c; doz., $1.24 prepaide.

PIKE'S CHOICE HARDY PHLOX

Phlox will start to blossom in July and will continue to last for weeks. Phlox are extremely showy and are gaining in popularity so fast that it is difficult to supply the demand. In planting, be sure and place the crown of the plant at least two inches below the surface of the ground. I offer strong root of the following:

HOW TO FORCE DUTCH BULBS FOR WINTER BLOOMING
Select a suitable jar or flower pot and use good garden soil. Fill the pot about half full of soil and place bulb in middle and cover level full with soil so that bulb is below surface of the soil. Firm with hand on top. Place in a cool place just above freezing and water heavily. Cover with straw or other litter and leave for six to eight weeks or until quite heavily rooted. Do not allow soil to become too dry but don’t overwater until root action starts. When well rooted, bring plants to light and beautiful flowers will emerge in a few weeks.
Chinese Sacred Lilies and Paper White Narcissus can be placed in water with stones for support and will blossom beautifully.
